"Really solid - great arrangements, singing and playing. I'm a Nanci Griffith fan and love your version of Spin on a Red Brick Floor and really like Lonesome Mountain. Good originals too!

Thanks again and good luck with your new band (cool name)!!

Jerry Mills (KOLT FM)

"It's been a while since I've been so knocked out by a band and CD that I know little about. You guys are phenomenal! Let's do a phone interview. I'd love to learn more about you and profile the band and CD."

Carol Beaugard, WFDU-FM and WAMU'S Bluegrass Country

"The Nu-Blu debut album is out as a self-released project, and it's not merely good, it's a blessing for fans of traditional bluegrass."

The Bluegrass Special.com

"All the best to you with this CD! You have a great sound. Easy on the ears, and true to the genre."

Dan Joseph (Bluegrass Express CKWR-FM, Waterloo, Ontario, CAN)

"This extraordinary CD just takes your breath away. It starts off strong and continues that way until the last note of *NIGHTS*. The vocals by Carolyn are crystal clear and they take you into her special place. The harmony vocals by the other band members fit in perfectly with the total sound. I just loved the instrumental *Red Haired Boy* and thought another traditional instrumental would fit in very well. This band has a hard driving sound that resonates well with bluegrass audiences. My listeners loved it!!!! A sure fire winner."

Al Shusterman (KCBL Radio, Sacramento, CA)

"I got the Nu-Blu CD, *NIGHTS* and I want to thank you very much for sharing such an outstanding band. They sing and play some of the most genuine, honest and delightful roots

music around. I'll be more than happy to give plenty of airplay to their music here in my radio show called 'Happy Trails' on Susa Onda Radio. "

Remo Ricaldone, Italy

"Contemporary Bluegrass often has connotations of 'fixing' something that's wrong with traditional Bluegrass. Nu-Blu is contemporary in that this band is new to the national scene. However, all the elements of traditional 'grass are present here with a drive that comes from years of honing skills as a unit, a true understanding of the music's past and a desire to add to the ongoing history of the music. Top notch vocals from each member and monster talent on their respective instruments, make this disc a welcome addition to any music library. Turn this one up loud and feel what *real* Bluegrass music sounds like!

Cort Riggs (Music Shed)

"When the band asked me to write something about their new project, I thought, 'oh boy.' I was praying it was good because being friends, you hate to have to lie. Well, I've listened to it several times and I'm proud to say, I don't have to feel pressure to saying something nice. It's really that good! Fresh material, tight vocals, wonderful picking, and top notch production. Folks really need to pay attention to this band. Now, I've said that, I'm going back and listen to it again."

Buddy Michaels, Hometown Festival Radio Show WBAG/WKRX/WLHC

"Nu-Blu has a fresh sound that this music needs! They will delight any audience."

Steve Dilling (Russell Moore & Illrd Tyme Out)

"Nu-Blu's new CD is really good! Wonderful songs, songwriting, vocals and pickin' by these guys. Nu-Blu will shine in the bluegrass genre real soon, so be looking for them!"

Lou Reid (Lou Reid and Carolina, Seldom Scene, Longview)

"Thanks for sending me the music. I really enjoyed it! I also checked out your website and wish you all well. What a talented, young group. I love the sound and your lead singer has an amazing voice. Echoes of Alison Krauss, but with her own unique style! (I love Allison, so I hope this is taken as a major compliment!) Best of luck. Keep the music flowing down that River of Love!

"Christmas in Dixie"

"I was thrilled to hear the new release *Christmas in Dixie* from Nu-Blu. Taking a song that has already been labeled as a country great can be hard to reproduce, but Nu-Blu just turned a country great into an instant bluegrass great. A great band just did another great job."
